Loans to which bankruptcy, reorganization, or rehabilitation procedures have been taken from among those (except for a portion of loans write-off, hereinafter, “loans whose accrued interests”) whose accrued interests are not recorded in this report under the judgment that their principals and/or interests cannot be collected or repaid, due mainly to the fact that payments of such principals and/or interests have been delayed for a considerably lengthy period.

## Asset Assessment

Asset assessment is made under Article 6 of the Act on Emergency Measures for Revitalization of the Financial Functions (Act No. 132 of 1998) to classify those listed as corporate bonds in our Balance Sheet (limited to bonds held by financial institutions that guarantee, in whole or in part, the repayment of principal or the payment of interest and that are issued as private-placement securities under the provisions of Article 2-3 of the Financial Instruments and Exchange Act (Act No. 25 of 2011)), loans and foreign exchange in our Balance Sheet, as well as those listed in accrued interest, temporary payments, and guaranty endorsement accounts, together with securities (limited only to those under loan for use, or lease agreements) in the case of security loans that should be annotated in the margin, into the following four types based on debtors' financial conditions and management results.

1. Loans to bankrupt parties and rehabilitation and similar cases  
Loans to bankrupt parties and rehabilitation and similar cases include claims against debtors in bankruptcy because bankruptcy, reorganization, or rehabilitation procedures have been taken against them and similar cases.
2. High-risk loans  
High-risk loans include loans where principal and/or interest cannot be collected or received in a manner as agreed as a result of aggravated financial conditions and records, though the debtors concerned have not filed for bankruptcy.
3. Loans under management  
Loans under management include both loans delinquent three months or more and lending condition-eased loans.
4. Standard loans  
Standard loans include those loans in which there are no particular concerns about debtors' financial conditions and management results and are not included in the debts listed in items 1 to 3 above.
